SINGLE WALL

The Single Wall Slat system offers similar hurricane protection as our 55mm rolldown system but utilizes a smaller profile housing, creating a more aesthetically pleasing look.

Single Wall Rolling Shutters not only provide hurricane protection but also provide energy efficiency, thermal comfort, and security. The strong security interlocking aluminum profiles are built to withstand impact while the guide rails prevent the slat curtains from being ripped out from the edges to prevent tampering

It is our most versatile product and has been used in:

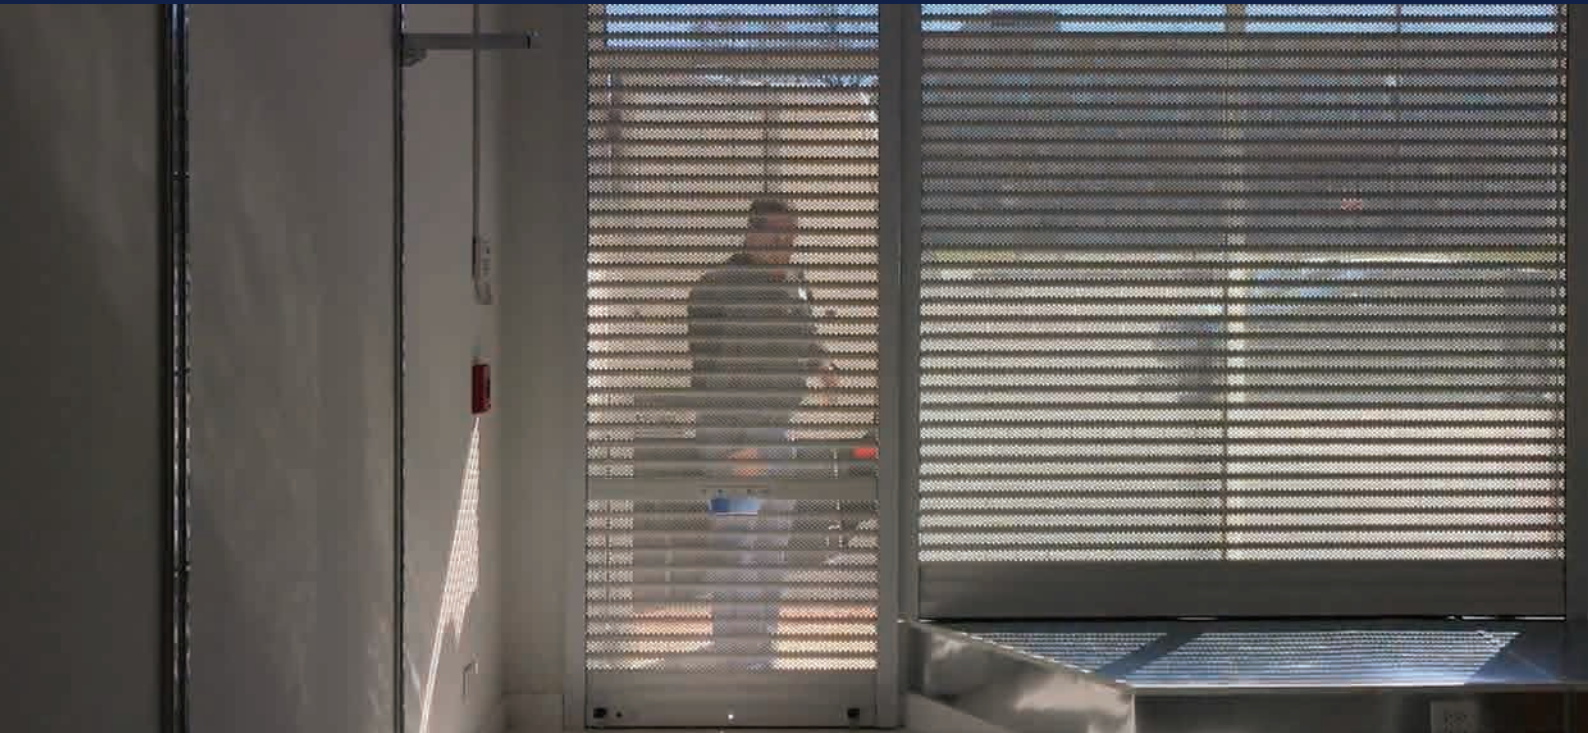

Storefronts
Airports
Hotels/Motels
Counters
Homes
Kiosks
Schools
Malls

Enjoy your Lanai or patio year-round—without the bugs, glare, or harsh heat. Our premium mosquito and solar screens combine German quality, European design, and Florida manufacturing to deliver unmatched durability, style, and ease of use.

Built with Heroal zip screen technology and the ClipZip® high-performance zipper and rail system, these screens are engineered for long-lasting performance in Florida's toughest conditions while blending seamlessly into your home's architecture.

The remarkably compact design allows you to conceal the box and tracks in ways that were once unimaginable. However, with the housing and tracks appearing so sleek and elegant, you might find yourself reluctant to hide them!

Imagine having a spot where your family can hang out and enjoy the outdoors without pesky mosquitoes or harsh sunlight. Picture a cozy patio where you can kick back, entertain, and spend quality time with loved ones. By turning your outdoor area into a bug-free, shady haven, you'll find yourself wanting to step outside more often.

This upgrade not only makes your outdoor space more usable but also makes you feel more at home. With the comfort of a mosquito-free and glare-free patio, it becomes an extension of your home, perfect for relaxing after a long day or hosting family and friends.

Savor the bliss of outdoor coziness all year round, minus the bug invasion! Soak up the delightful vibes without melting under the fiery sun. Enjoy your own little oasis, safe from nosy neighbors, while reveling in your outdoor haven.

The Heroal mosquito and solar screen is an energy-efficient zip screen system designed to handle Florida's toughest conditions.

- **High wind stability:** Withstands winds up to 90 mph.
- **UV protection:** Blocks up to 100% of harmful rays to keep interiors cool and prevent fading.
- **Large coverage:** Shade areas up to 20 ft wide and 20 ft² from a compact, sleek box design.
